

SAMPLE / Course Catalog Edit

LETTER OF TRANSMITTAL

November 28th, 2020

Dr. Darren Lee

Associate Director of Student Affairs

UW Medical School

As I draw closer to completing my edits for the UW Medical School Clerkship Catalog, I would like to update you on changes that have been made.

In its original state, the catalog was exported from an internal database – it was never designed with the user's needs in mind. As a result, information was difficult to disseminate for several reasons: the content did not rely on navigational aids, was often redundant, and was presented in a claustrophobic manner.

In order to improve for navigation, I decided to start from scratch. I wanted all important information to be found easily. After carefully reviewing the catalog, I decided to pursue a new structural design, which includes clear labels ("credits", "duration", "pre-reqs", "permissions", "availability", and "notes") for navigational aids. Additionally, I utilized color contrast in order to organize information in a clear hierarchy.

To minimize redundancy, I carefully reviewed the catalog and removed any duplicate information. For example, locations were originally mentioned in this format: "St. Vincent's Healthcare Billings - Billings, MT; Billings, MT" – this is not easily readable. In my revision, all information is much more concise, and the format always consistent: ("**Specific location; City, State**" = "St. Vincent Health Care; Billings, MT"). Although these changes may appear superficial, the original catalog had hundreds of instances of redundancy, and these ultimately add up to interfere with usability.

To address the claustrophobic presentation of information, I provided clear separation between information by adding blank space. I also introduced multiple columns (original was arranged in a single-column), which provided a more dynamic structure. This distinguished the new document from the original; at first glance, the pre-edited catalog looked like a single disorganized block of text.

As I come close finishing my edits, I would like to say thank you the opportunity to develop and refine my technical editing. Please let me know if you have any questions, feedback, or requests for further modification of the catalog.

Thank you,

Luke Jaeger

Clinical Clerkship Description and Enrollment Details

Unless noted otherwise, all clerkships are:

*High pass/honors eligible

**Subject to Compliance & Drug Testing: Practices vary by site, contact clerkship administrator (Note: VA: Requires extensive credentialing paperwork)

ANEST 650 - APC Pain Medicine (Seattle, WA)

Participation as part of a Pain Medicine team in evaluation and management of patients experiencing short-term post injury (surgery, trauma) pain and/or long-term pain.

Duration	Credits	Pre-reqs	Permission	Location	Availability
4 weeks FT	8	No	No	HMC; Seattle, WA	E*Value

Notes:

ANEST 654 - APC Pain Medicine (Eagle River, AK)

Exposure to pain management. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

Duration	Credits	Pre-reqs	Permission	Location	Availability
4 weeks FT	8	No	No	NAPM; Eagle River, AK	E*Value

Notes:

ANEST 657 - APC Pain Medicine (Seattle, WA)

Exposure to pain management. Students are assigned to a preceptor and clinical site to concentrate their clinical activities. Includes didactic orientation on the first day and patient case presentations during didactic on the last day.

Duration	Credits	Pre-reqs	Permission	Location	Availability
4 weeks FT	8	No	No	VA Puget Sound Seattle - Seattle, WA; Seattle, WA	E*Value

Notes:

ANEST 662 - APC Pain Medicine (Fairbanks, AK)

Exposure to rehabilitation, geriatrics, palliative care, and pain management through the Chronic Care website and didactics. Students focus their clinical activities on chronic pain management.

Duration	Credits	Pre-reqs	Permission	Location	Availability
4 weeks FT	8	No	No	Integrative Pain Center of Alaska; Fairbanks, AK	E*Value

Notes:

ANEST 663 - Basic Anesthesia (Cheyenne, WY)

Introduction to the principles of airway management, ventilator support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

Duration	Credits	Pre-reqs	Permission	Location	Availability
----------	---------	----------	------------	----------	--------------

2 weeks FT	4	No	No	Cheyenne Regional Medical Center; Cheyenne, WY	E*Value
------------	---	----	----	--	---------

Notes: *Pass/fail only

ANEST 665 - Basic Anesthesia (Anchorage, AK)

Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

Duration	Credits	Pre-reqs	Permission	Location	Availability
2 weeks FT	4	No	No	Alaska Native Medical Center; Anchorage, AK	E*Value

Notes: *Pass/fail only

****Compliance & Drug Testing:** Standard 6 panel drug test through the SOM is required. Drug test must be within 30 days. Order a drug test through the SOM at <https://www.uwmedicine.org/education/Pages/Drug-Testing-for-Select-Clerkship-Rotations.aspx>

ANEST 667 - Basic Anesthesia (Billings, MT)

Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

Duration	Credits	Pre-reqs	Permission	Location	Availability
2 weeks FT	4	No	No	St. Vincent Health Care; Billings, MT	E*Value

Notes: *Pass/fail only

****Standard 6 panel drug test through the SOM is required. Order a drug test through the SOM at <https://www.uwmedicine.org/education/Pages/Drug-Testing-for-Select-Clerkship-Rotations.aspx>**

ANEST 668 - Basic Anesthesia (Missoula, MT)

Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

Duration	Credits	Pre-reqs	Permission	Location	Availability
2 weeks FT	4	No	No	Missoula Anesthesiology, PC; Missoula, MT	E*Value

Notes: *Pass/fail only

ANEST 669 - Basic Anesthesia (Bozeman, MT)

Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

Duration	Credits	Pre-reqs	Permission	Location	Availability
2 weeks FT	4	Third or fourth year student.	No	Gallatin Valley Anesthesia; Bozeman, MT	E*Value

Notes: *Pass/fail only

ANEST 670 - APC Advanced Anesthesiology (Bozeman, MT)

Clerkship for students desiring greater exposure to anesthesiology as a specialty. Individual programs can be arranged in the following areas: surgical anesthesia, obstetrical anesthesia, and pain clinic.

Duration	Credits	Pre-reqs	Permission	Location	Availability
4 weeks FT	8	No	No	Gallatin Valley Anesthesia; Bozeman, MT	E*Value

Notes:**ANEST 671 - Basic Anesthesia (Boise, ID)**

Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

Duration	Credits	Pre-reqs	Permission	Location	Availability
2 weeks FT	4	No	No	Saint Alphonsus Regional Medical Center; Boise, ID	E*Value

Notes: *Pass/fail only**ANEST 672 - Basic Anesthesia (Boise, VA)**

Introduction to the principles of airway management, ventilator support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

Duration	Credits	Pre-reqs	Permission	Location	Availability
2 weeks FT	4	No	No	Boise VA Medical Center; Boise, ID	E*Value

Notes: *Pass/fail only**ANEST 675 - Basic Anesthesia (Spokane, WA)**

Introduction to the principles of airway management, ventilator support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

Duration	Credits	Pre-reqs	Permission	Location	Availability
2 weeks FT	4	No	No	Spokane Deaconess Medical Center; Spokane, WA	E*Value

Notes: *Pass/fail only**ANEST 677 - Basic Anesthesia (Seattle, WA)**

Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring, and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture, and endotracheal intubation.

Duration	Credits	Pre-reqs	Permission	Location	Availability
